

## WHO WE ARE

At Learn with IntraEdge, we redefine what a learning agency looks like. We design and develop next-level learning experiences while tackling the challenges that companies often face when it comes to training.

We engage learners by infusing every course we create with innovative, memorable and immersive content and modalities. Throughout the learning design process, we map learning objectives to the competencies that will improve learners' knowledge and performance.

With our diverse portfolio of projects, clients and expertise, we are ready to collaborate to create effective training on any subject.

## DESCRIPTION OF TRAINING:

New tools and systems are the cornerstone of competitive advantage, but their complex nature often requires a special educational approach to enable adoption. At Learn, we know that a well-designed and executed training effort is key for the success of any new system or tool. To keep up with the demand, we have supported our clients in designing and delivering effective and enjoyable training programs.

We begin by partnering with subject matter experts and engineering leaders to offer comprehensive training for external partners or clients introducing new systems to their employees, vendors or customers. Our educational suite encompasses multiple online courses dedicated to using connectivity solutions to solve internet access challenges leading to improved global internet access.

- Platform and hardware technical training
- Telecom small and medium business training

The courses provided hardware and software professionals with efficient solutions from open-source programs, guidance for installing hardware, and ways to connect the two to create better internet connectivity. Other courses focused on monetization opportunities.

Our team of experts deliver creative content that highlights key objectives in order to reach our client's goals. With each project, we aim to offer the best return on investment by increasing learner engagement through captivating content design, fun interactive experiences and unique brand essence.

## OUTCOMES:

- Learn about the solutions' functionality and relevant application in their day-to-day jobs.
- Acquire technical knowledge required to utilize the solutions successfully Understand and be able to implement monetization opportunities.

## DELIVERABLES:

- Three online learning (eLearn) courses with interactive exercises, knowledge checks, and exams
- PDF Handouts
