WHO
WE ARE

At Learn with IntraEdge, we redefine what a learning agency looks like. We design and develop next-level learning experiences while tackling the challenges that companies often face when it comes to training.

We engage learners by infusing every course we create with innovative, memorable and immersive content and modalities. Throughout the learning design process, we map learning objectives to the competencies that will improve learners' knowledge and performance.

With our diverse portfolio of projects, clients and expertise, we are ready to collaborate to create effective training on any subject.

DESCRIPTION OF TRAINING:

· For our clients in the Medical and Healthcare sector we have delivered courses that ensure consistent messaging to target audiences.

· To maximize the effectiveness of new platforms, products, procedures and therapies, our team collaborated with medical and pharmaceutical experts in the endocrine field to develop dedicated training for complex therapies and therapeuticals as well as medical and healthcare diagnostic systems. We used pedagogical best practices combined with customer input to deliver online courses that are interactive, learner-centered, engaging, and available on-demand.

Our team of experts deliver creative trainings that address key objectives in order to reach our client's goals. With each project, we aim to offer the best return on investment by increasing learner engagement through captivating content design, fun interactive experiences and unique brand essence.

OUTCOMES:

· Enabled organizations and individuals taking the courses to assess and choose therapeutic approaches based on clinical data and industry recommendations.

· Trained medical professionals and caregivers in using advanced diagnostic systems to scale and grow their impact.

· By using an interactive approach, participants were able to prioritize learning the product attributes and then successfully identify use cases to implement available therapeutic knowledge.

DELIVERABLES:

Online learning (eLearning) courses with interactive exercises, knowledge checks, and exams
