- Early Warning

## WE PARTNER TO PROVIDE SOLUTIONS

- Employee Development
- Onboarding
- Workforce Development
- In-Person Sessions
- Bootcamps
- Performance ROI
- Training & Retraining
- Online Learning
- Forecasting Evangelism

## WHAT MAKES US DIFFERENT

**01 WE ARE A PERFORMANCE ROI-DRIVEN LEARNING AGENCY** that employs multi-modalities and approaches to improve speed and delivery of learning while improving efficacy and outcomes. Engagement is the foundation of the context we use to drive our process and draw the learner in emotionally. Each course is designed to connect the learning objectives and competencies necessary to show what they know and then perform.

**02 WE DESIGN FOR THE LEARNER AND THEIR EXPERIENCE** by understanding the content and the audience, the organization and the scale; then align the modality, pedagogy and delivery. We believe that learning environments and content should adapt to a digital world where users are able to learn on the fly in micro-moments on mobile, immerse themselves in a VR experience, have a chatbot assistant to drive learning that never ends or socialize on platforms with peers in learner-driven experiences.

## HOW WE CAN PARTNER WITH YOU

We strive to provide high quality work with teams that function efficiently in their areas of specialization. Our teams are made up of learning designers, VR and AR experts, multimedia designers, developers, motion graphic artists and program managers at the top of their field. Members of our teams have previously worked at Facebook, Apple, Arizona State University, North Face, Hollywood Studios and more.
